Library View

Your book should open immediately. If it doesn't, double click on the ebook to open it.

Ebooks can be returned early if you right click the ebook and select "Return Borrowed Item" from the pop-up menu.

You can renew an ebook three days before it is due. Go to the OverDrive website and click the icon for your account and select "loans." Under the cover of the book you'd like to renew you will see "Request Again." Enter and confirm your email address in the pop-up window. If the book is available, it will return itself at the end of your loan period and then you will need to download it again. If it is not available, it will be added to your holds page.

Reading View

Once a book is opened, Adobe Digital Editions will switch to "Reading View."

From the top menu bar, you can change the font size, view bookmarks you have created, and access the table of contents. You can return to "Library View" by clicking the "Library" button in the upper left-hand corner of the window.

To scroll backward and forward through the text, click the arrows at the bottom right-hand and left-hand corner of the window.

Transferring an eBook to Your e-Reader

To transfer an ebook to your e-reader, plug the e-reader into your computer and then launch Adobe Digital Editions.

Once the e-reader is connected to the computer, it will appear in the left-hand sidebar of the "Library View" window. Drag the ebook you want to transfer to the e-reader icon in the sidebar.

Make sure to remove your device safely by right clicking the icon in the taskbar that says "Remove Hardware Safely." When the computer says it's safe to remove then you can unplug it.

On some e-readers, library ebooks will appear under "My Documents" or "My Files" and not under "My Library" with ebooks you have purchased.
